

S 90 HLA

WORKING HEIGHT 90 METERS

S 90 HLA

	Max. working height	Max. working outreach	Max. safe working load	Transportation height, approx.	Transportation length, approx.	GVW
S 90 HLA	90 m	32 m	700 kg	3,95 m	15,5 m	48000 kg

Bronto Skylift's High Level Articulated (HLA) range represents the ultimate in high rise access. Bronto Skylift S 90 HLA offers unrivalled features and excellent economy.

Excellent manoeuvrability and drivability

- Mountable onto a standard 4-axle truck with added trailing axle
- Comparably short overall length of only 15,5 meters
- Steered trailing axle
- Reasonably short front and rear overhang
- Excellent approach angles in the front and rear
- GVW below 48 tonnes

Fast and convenient operation

- H-type outriggers in the front and rear for minimum set-up space requirement
- Permanently fixed footplates, no manual adjustment needed
- One button automatic levelling with remote control

- Excellent levelling capacity

- Bronto+ control system with variable cage load, operational information, fault finding capabilities, colour displays, etc.

Maximum work efficiency and return on investment

- Best height / weight (GVW) ratio on the market
- Economical chassis (no lowering of the cabin needed)
- Enormous outreach even at big heights, e.g. 27 meters at 60 meters height
- Fast movements due to a generously dimensioned hydraulic system
- High cage load of 700 kg unrestricted at any height
- Optional one-sided jacking available
- Fault finding and remote diagnostics systems available
- Available on all major commercial chassis with standard cab

Bronto Skylift S 90 HLA has Bronto+ electronic control system. The control centers have full colour displays with excellent visibility.

Combined horizontal and vertical reach.

Cage slewing 90 degrees. Hydraulically extendable cage available as an option.
