

MB-R700

MB[®]
THE CRUSHING EVOLUTION

MB-R700

Precise and powerful, the MB-R700 model is the smallest in the range and allows the accurate processing of natural materials (rock and stone), and the levelling of plasterwork, wall coverings and surfaces in concrete. The low levels of noise generated, and the limited levels of vibration, render this machine ideal for use in delicate areas and residential centres.

ACCESSORIES

RECOMMENDED SPARE PARTS KIT
FIXED COUPLER
QUICK FEMALE COUPLER
24 MONTHS WARRANTY

AREAS OF APPLICATION

TUNNELS
PIPING
