

AXiA EM

PLATFORM STACKERS

1.2 - 1.6 tonnes

AN INTUITIVE TRUCK... FOR SAFE OPERATIONS

The versatile AXiA EM 1.2 and 1.6 tonne platform stacker range is the perfect choice for medium stack applications in narrow spaces.

WHEN
RELIABILITY IS
EVERYTHING...

AXiA EM

SBV12P(I) - 16P(I)(S) Series

PLATFORM STACKERS

1.2 – 1.6 tonnes

The AXiA EM stacker is easy to drive thanks to its intuitive power steering, so the operator can work confidently and safely, ensuring smooth, fast and productive operations.

To prevent unauthorised use, it features a PIN code as standard. This means operator performance can be monitored.

AXiA EM has an optional Initial Lift allowing it to serve as a double pallet handler for maximum efficiency, as well as ease of use on ramps and uneven floors.

DRIVE

- **Powerful AC drive motor**
Excellent traction and ramp performance, smooth, quiet, controlled operation, extended shift length and lower maintenance requirements.
- **Initial lift**
Can be used as a double pallet handler. (Optional)

FORKS AND MAST

- **Tapered forks**
Access to pallets in racks or block stacks is easier, quicker and safer.
- **Wide range of lift heights and mast types**
Triplex, standard and free lift masts are available.

OPERATOR COMPARTMENT AND CONTROLS

- **PIN-code access**
Stops unauthorised truck use and keeps you aware of who's operating at all times.

- **Easy-to-operate tiller arm**
Its large buttons mean operators can focus on the task in hand and minimise mistakes.
- **Ultra-low step height**
Operators stay more productive throughout shifts thanks to easy on/off access.
- **Left-handed or right-handed controls**
The tiller arm's versatile design allows for operation from either side.
- **Foldable side bars**
These encourage efficient, safe operations by eliminating the need for operators to step off the platform. (Optional)
- **Dampened platform**
Operators are protected from knocks and bumps, allowing them to stay in a more natural driving position for greater comfort throughout shifts.
- **Keypad and clear display on tiller head**
Activate the truck, change direction and review settings.

FRAME AND BODY

- **Robust cast-iron platform**
Resistant to impacts and knocks.

ELECTRICAL AND CONTROL SYSTEMS

- **Battery discharge indicator**
Fitted as standard for battery protection and preventing deep discharge.
- **Battery rollers**
Changing batteries is quicker, easier and safer.

- **Li-ion battery**
Fast charging - removing the need for extra batteries. (Optional)
- **Electronic power steering**
Smooth, precise control with minimal effort and maximum comfort. (Optional)
- **Power steering resistance**
Natural driving experience to engage drivers and keep them alert.

OTHER FEATURES

- **RapidAccess features**
These allow quick and easy entry to all areas for checks and maintenance.

AXIA EM

OPTIONAL LI-ION BATTERY SYSTEMS

MAKE YOUR FORKLIFT (AND ITS FUEL) GO EVEN FURTHER

Tried, tested and proven in the field, lead-acid batteries have been the long-standing top choice for companies employing electric lift trucks. However, with long charging times, demanding maintenance requirements, the need for extra batteries and high risk of operator misuse, it can be a challenge. Fortunately, there's a new battery system on the block: Li-ion from Mitsubishi Forklift Trucks.

Designed to meet your business' demands - including multi-shift (24/7) operations - without the need for spare batteries, our high-performance Li-ion battery system is up to 40% more efficient than lead-acid counterparts. Plus, it's virtually error-proof, thanks to its ultra-low-maintenance design which prevent cell damage.

- **Exceptional, zero-emissions efficiency** 40% more efficient than lead-acid batteries and free from gases.
- **Ultra-low maintenance design** demands just a full charge each week to activate cell balancing, as well as an annual CSV export/update.
- **No space required** with no need for charging areas, there's no cost to set up and you can keep your profitable space just that: profitable.
- **Quick charge capabilities** mean that just 15 minutes is all your battery needs to keep your truck going a few more hours. (It only takes 1 to 2 hours to fully charge a completely discharged battery.)
- **Higher sustained voltage** ensures more consistent lifting and driving performance, which is particularly noticeable towards the end of a shift.
- **TriCOM Technology** delivers exceptionally high system efficiency (up to 97%).
- **Water-free design** With no water in the battery and no need to top up, there's no risk of operators damaging cells.
- **Active protection componentry** This continuously monitors the system, highlighting potential issues, including misuse.
- **Short circuit protection** is offered by system safeguards including: deep-discharge and overcharge protection, individual cell temperature and voltage monitoring.
- **On-the-go performance and monitoring** is possible thanks to the system's integrated monitoring system with easy-to-read display unit, as well as an opportunity charger on board.

Battery capacity, Ah	208	260
Charger capacity, A, 1 – 2,5 hour*	100	200

* Both values possible for 208Ah Li Ion battery, depending on charger.

WHEN RELIABILITY IS EVERYTHING...

AXIA
THE ALL ROUNDER

With a name that reflects its manoeuvrability, AXIA combines award-winning ergonomics with high performance and low maintenance features to deliver a complete warehouse support package.

Efficient, versatile and durable, AXIA is the perfect choice for every workplace.

Like any product bearing the "MITSUBISHI" name our materials handling equipment benefits from the tremendous heritage, huge resources and cutting-edge technology of one of the world's largest corporations – Mitsubishi Heavy Industries Group.

Engineering spacecraft, jet planes, power plants and more, MHI specialises in those technologies where performance, dependability and superiority decide your success or failure...

So when we promise you quality, reliability and value for money, you know it's a guarantee we have the power to deliver.

That's why every model in our award-winning and comprehensive range of lift trucks and warehouse equipment is built to a high specification – to ensure it keeps working for you. Day after day. Year after year. Whatever the job. Whatever the conditions.

YOU'LL NEVER WORK ALONE

As your local authorised dealer, we are here to keep your trucks working – through our extensive experience, our technical excellence and our commitment to customer care.

We are your local experts, backed by efficient channels to the entire organisation of Mitsubishi Forklift Trucks.

No matter where you are, we are close by – with the capability to meet your needs.

Discover how Mitsubishi Forklift Trucks give you more from your local authorised dealer or when you visit our website www.mitforklift.com

Performance specifications may vary depending on standard manufacturing tolerances, vehicle condition, types of tyres, floor or surface conditions, applications or operating environment. Trucks may be shown with non-standard options. Specific performance requirements and locally available configurations should be discussed with your distributor of Mitsubishi forklift trucks. We follow a policy of continual product improvement. For this reason, some materials, options and specifications could change without notice.
